**Visitor
Accessibility
Guide**

PARKING for Muse guests is free. Visitors can park atop the hill within Chilhowee Park or in the accessible spaces in the circle in front of the museum.

Our exhibit spaces, snack time area, and public restrooms are all **WHEELCHAIR ACCESSIBLE.**

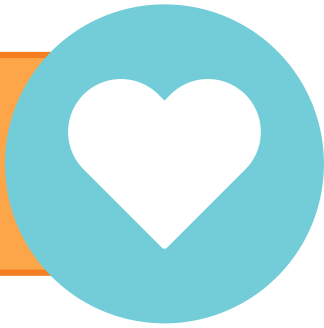

SERVICE ANIMALS specifically trained to aid an individual with day to day tasks are welcome within our facility. Leash-control of service dogs is required.

At the front desk, we have **SENSORY PACKS** which include: weighted or compression vests, sensory + fidget toys, and noise cancelling headphones. Please ask a staff member at the front desk for details.

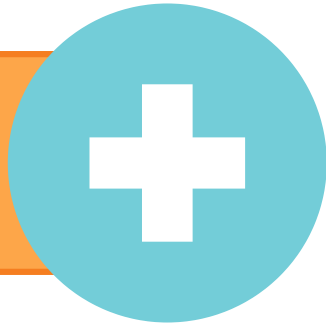

Along with an expanded handicap stall in both the men and women **RESTROOMS**, we now feature a lower-to-the-ground trough sink, allowing for an easier handwashing experience for wheelchair users. Changing tables are also available for use.

Located throughout the museum are several comfortable areas for **NURSING**. Please let a Muse staff member know if you would like a private space for nursing or pumping, and we will do our best to accommodate your needs.

STROLLERS are allowed within the museum and may be parked in our Stroller Parking Area on our play floor.

FIRST AID KITS are available at our front desk. An **AED KIT** is located on the wall behind the bathrooms near Healthy Kids Clinic. If you would like access to one, please ask our floor staff for assistance. You may also store medical equipment at the front desk during your visit.

We offer one complimentary admission ticket at the request of a **THERAPIST**, **VISUAL INTERPRETER** or **CAREGIVER** who is aiding a paid visitor or member requiring medical or physical assistance during their visit to Muse Knoxville.

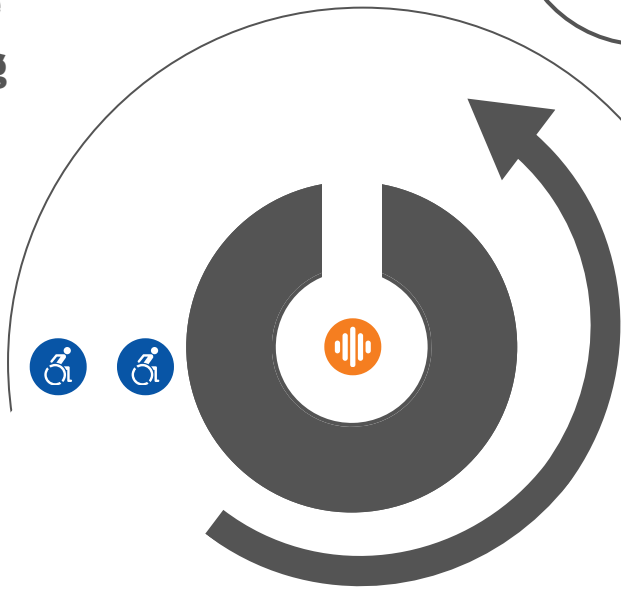

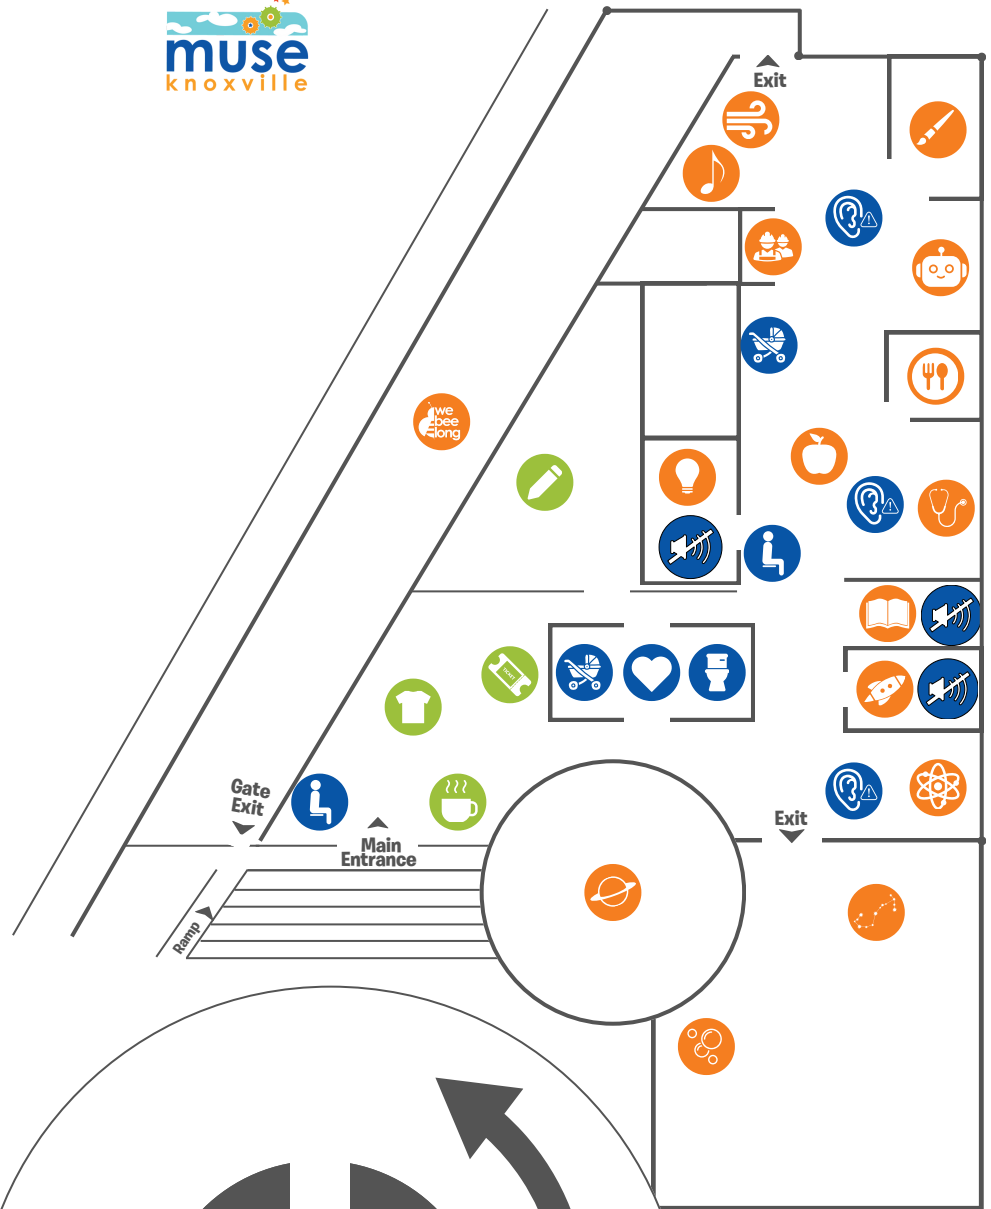

COURT-APPOINTED SUPERVISORS will be admitted to the museum for free during supervised visitations.
